

CLUB PASS PROCEDURES

To Club Pass is to loan age appropriate players between teams within the club. This can be done in both our gaming league and State/National Cup. However, the rules are different for each.

During Gaming League (SCDSL)

The coaches will work with the Director of Coaching on the personnel needs of each team for the upcoming weekend. If a player is reassigned for the weekend by our DOC, the DOC or their coach should inform the family involved. Here are the SCDSL guidelines/instructions if you are the team that is taking a club pass player to your game:

If you have a player(s) from your club that are playing on your team (and are age appropriate), write the player name and player id# on all 3 copies of the match report. Players **MUST HAVE THEIR PLAYER ID CARD (Cal South card) in order to be eligible to play in the game. Players CAN ONLY PLAY IN ONE GAME PER DAY.** *There is not a special card for the club pass, they just need their player ID cards.*

Make sure that you or the family gets the player card/medical release from the team administrator of that player so you can check them in on the field. If the family is responsible for getting the card, make sure they are aware that they will not be able to play if they do not bring their player card to the game.

It will be yours or the family's responsibility to get the card/medical release back to their team administrator.

For State/National Cup

You may club pass for State/National Cup. However, if you club pass, you must do it before Roster Freeze deadlines for both your team and the team that player is coming from. That player cannot play for any other team during cup play. Here are the guidelines from Cal South for State/National Cup:

Use of the Club Pass for State and National Cups. The club will determine when a player is placed on a State Cup Tournament Roster. The Club has the ability to move players from within the Club onto and off of a team's State or National Cup Tournament Roster prior to the Roster Freeze. These moves within the club would not count as one of the 5 transfers as long as 9 player continuity is maintained. For details,

please consult the State and National Cup Rules.

In addition to the Cal South rules, our club requires that all families that are being club passed for State/National Cups MUST authorize via email to Darlene Quintanar at realsocaldarlene@gmail.com that they agree to be club passed to that team for State/National Cup.

You can find detailed instructions on how to mechanically club pass on your tournament player roster by going to www.calsouth.com and scroll over tournaments and click on state tournaments. The link to the detailed instructions are on the front page under "Use of the Club Pass for State and National Cups". However, you cannot do this until Darlene Quintanar has received the authorization and instructed you to proceed.
